MEMORANDUM FOR: Members, Imagery Exploitation Subcommittee,
COMIREX

SUBJECT : National Imaging Plan for Satellites

REFERENCE : D/DCI/IC Memorandum to Chairman, COMIREX,
[redacted], 27 January 1975

25X1

1. By reference, the D/DCI/IC requested COMIREX inputs to the National Imaging Plan for Satellites concerning imagery requirements and exploitation. I have been tasked to develop the Exploitation portion, Annex C. The objective is to establish that part of the planning base which will make explicit the current and projected capabilities, needs, resources, data bases, and output of imagery exploitation components within the intelligence community. For your information, an initial outline of Annex C is at attachment 1. Parts I and II are currently being drafted and should be available for EXSUBCOM coordination in early October 1975.

2. In preparing Part I, which describes the exploitation environment/planning for the period 1975-1976, the IC Staff requested that resource information be included for the years FY 65 through FY 76, to help put current exploitation resources in perspective.

3. Attachment 2 lists those organizations for which resource information is required. Data included for FY 75 and FY 76 was that information furnished to the Ad Hoc Interagency Imagery Exploitation Task Team.
